Vegetation must be cleared to provide a fourteen foot vertical clearance and four foot shoulder clearance on both sides of the roadway. Edge of pavement should be [delineated](#) and vehicles should be parked six feet from edge of pavement. Email [sharrington@townofsandwich.net](mailto:sharrington@townofsandwich.net) or call 508-833-8000 for additional information.

21 roads removed from the original plow list have submitted a Winter Maintenance Petition. 7 of those 21 petitions have been denied for various maintenance issues.

This list does not include all privately-owned roads currently not receiving winter maintenance from the Town.

PRIVATE ROAD WINTER MAINTENANCE  
DOOR KNOB NOTIFICATION

**IMPORTANT  
NOTICE**

**TOWN OF SANDWICH**  
DEPARTMENT OF PUBLIC WORKS

**PRIVATE ROAD  
INSPECTION NOTIFICATION**

This notice is to inform residents whose private roads currently do NOT meet minimum standards for snow and ice removal.

The road deficiencies checked below must be repaired. Property abutters are required to reapply BEFORE October 1<sup>st</sup> in order to receive Town winter maintenance services NEXT winter season.

# TOWN OF SANDWICH

THE OLDEST TOWN ON CAPE COD

OFFICE OF THE BOARD OF SELECTMEN

P.O. BOX 860  
SANDWICH, MASSACHUSETTS 02563  
TELEPHONE 508-488-4913

## BOARD OF SELECTMEN POLICY

### WINTER MAINTENANCE OF PRIVATE ROADS

Effective July 1, 1994 and until further notice, the Board of Selectmen hereby authorize the Department of Public Works to provide winter maintenance, consisting of snow plowing and sanding only, in accordance with M.G.L. c.40, §6C for private roads which have not been accepted by the Town as public ways. This authorization is granted provided said roads meet the following criteria:

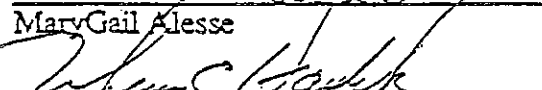

1. The road must be open to the travelling public with no restrictive gates, signage, speed bumps, or other hindrances present.
2. The road must have at least fourteen feet (14') vertical clearance in all areas without overhanging limbs or other obstacles.
3. A sign properly identifying the road must be installed and properly maintained.
4. The road must be properly marked along the edge of the right of way to provide direction to those providing winter maintenance services.
5. Residents of a private road who desire winter maintenance must submit a notice requesting the Town consider plowing their street along with a waiver of liability holding the Town harmless for any damage caused to the road and surrounding property by October 1 to the Department of Public Works.
6. The Department of Public Works will inspect the road to ensure it is plowable and in sufficient condition to avoid damage to Town equipment and injury to the Town's employees and agents.
7. If the road is deemed to be inappropriate for winter maintenance, the decision of the Department of Public Works is final.

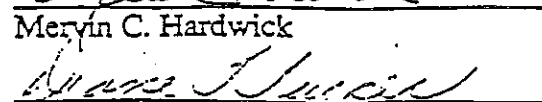

Given under our hands this 28th day of April, 1994.

  
Edward L. Condon, Chairman

Judith E. Koenig, Vice-Chairman

  
Mary Gail Alesse

  
Mervin C. Hardwick

  
Diane T. Tucker

In order to minimize plow damage to lawns within the Town right-of-way, the DPW recommends residents install 48 inch orange fiberglass driveway markers with white reflective tape 6 to 12 inches off of the edge of pavement. Fiberglass markers will minimize damage to vehicles if accidentally struck and the reflective tape is visible from all angles. Markers are available at your local hardware store.
